

KING CHARLES SPANIEL

I would like to thank Jennie Griffiths and Nick Gourley and all of their Committee for inviting me to award CCs for the first time to Charlies. Also a major Thank You to my two excellent stewards Jan and Pedro Fiers, judging 221 dogs on the day and keeping everything running smoothly was only possible thanks to them.

Big thank you to the exhibitors for giving me such lovely entry and giving me the opportunity to judge their beloved dogs.

I had some lovely specimen of the breed to go over. I loved the overall quality in the bitches. They form the basis for the future generations and it is lovely to see that the breed is in such good shape. Still, I would like to express my concern when it comes to the characteristic shape for ribs and substance of body. When ribs are lacking width, the chest often lacks correct length of sternum. This is not something of recent time, it has always been around but I would like to express my concern as it seems to get more and more accepted. But a Charlie needs to have good spring of rib and especially for a brachiocephalic breed it is necessary that the dog is well ribbed towards the back so enough room is available within the chest for lungs and heart.

Having said this, I think my winners of the day are lovely representatives of the breed. It was an absolute pleasure judging them.

Tri. This boy grabbed me the moment he entered the ring, so full of himself, so pleasing in appearance. Lovely size, compact in body and already with good substance for age. Well boned. Masculine head that, when I am critical, could have slightly more dome. Beautiful, wide set, dark eyes with the correct pleasing expression. Nice square muzzle with typical width and depth. Could have more layback of shoulder. Level topline flowing smoothly in a well set tail. Straight, well boned legs. Feet well-padded and round.

Straight and silky coat. Very positive mover with lovely tail action.

I had no hesitation to give him the CC, even at his young age. I am sure we will hear more of him in the future.

Ruby. Lovely dome. Well-spaced, dark eyes with the correct soft expression. I would like to see a little more width and depth in muzzle to gain in squareness. Nicely arched neck and correct layback of shoulder. Still a young dog who needs more time to body up and settle in movement.

And there she was..., obvious still a puppy but in a the package that had it all. I am totally smitten by this little

bitch. Refined, compact and cobby! Well broken in colour, nice dark chestnut on a pearly white background. Good width in skull and a distinctive domed head. Eyes set wide apart, dark and lustrous. Correct square muzzle. Good neck and shoulder, flowing smoothly in a straight, short back. Well boned and nice compact feet. Coat of excellent texture. Free mover who has a bright future ahead of her. I was delighted to give her Best Puppy. One to watch!!

Honoured to have just been able to judge such fine puppy..., my winner of the Junior Bitch class was another example of absolute quality. The standard asks for: 'Skull moderately large in comparison to size, well domed, full over eyes' and this phrase fits imperceptible on this bitch. I couldn't stop looking at her beautiful head. Tri of correct toy size. Longer in body than desirable but of good substance, width and depth. In her classic shaped head she carries beautiful dark eyes, a well-placed and turned up nose combined with an excellent square muzzle. For her age she already carries a good coat, straight and silky in texture. Excellent bone. Free and happy mover. Yes, I realise she is longer in body and during the competition for BOB she had to give way to the cobby boy but I was more than delighted to give her the CC.

2nd: 4509 POTTER Mrs T Toyswood Starlight Express

Feminine tri bitch. Unfortunately she met her Goliath in the number one. She is a typical teenager in full development. Well-shaped head with good dome. Correct nose placement. Good turn up muzzle that would benefit from a

slight more depth in underjaw. Her dark eyes set well apart but slightly prominent. She needs more time to gain in width and depth of chest. Well boned. Coat of correct silky texture.

Lightly marked Blenheim. Feminine head with good top of head. Dark eyes with correct expression. I would like to see more width in muzzle for a better squaring of her muzzle. She is still young and this shows in her general appearance. Body needs more time to fill out and her movement to settle. Nice silky coat that will come in time.

Blenheim girl of lovely size. Very feminine in appearance. Head of good width. Her ears are slightly high set which is a pity as it distracts the attention her well domed skull deserves. Dark eyes that are set wide apart, of good size and with pleasing expression. Square muzzle with tight fit lips. Sufficient neck. Back, short and level. Well ribbed and chest of good depth. Nice tail set and action. Clearly in between coats today. Good bone and free mover.

B/T of correct size. Very feminine in appearance. Head of correct width, ears are slightly higher set and like the nr 1 this distracts the well domed skull she actually has. Well set, dark eyes that are full of attention. Cobby body of good depth and substance. Straight, silky coat of good length. Lovely head and balance. Good mover. The two can change place any day.

Well, what is there to say... I recognised her immediately. Had the pleasure of judging this gorgeous Blenheim lady years ago when she was still a puppy and on the day she showed me all her potential that she proved to her breeder the following years. Still a lady to watch. Well broken colour on a pearly white background. Very feminine head with good width and lovely dome. Dark eyes, oozing softness and affection. Ears well placed and fully feathered. Correct square muzzle with nicely fitting lips. Well ribbed and cobby. Soft silky coat. With her six years she still showed her socks off.
