- Requests for money from The Rescue are to be made in writing (letter or e-mail) to the Rescue Secretary, Chairperson or Treasurer. Receipts/invoices are required for kennelling, veterinary treatment, medication etc.
- Decisions regarding release of money will be made by a minimum of three individuals. These being Rescue Officers and members of the Rescue sub-committee. Expert advice will be sought when decision-making on the need for and cost of veterinary treatment etc.
- It is essential when dealing with requests for financial assistance that the Officers and owner(s) of the dog(s) are clear whether the case is permanent rescue or temporary foster.
- All monies for rescue and welfare will be kept in dedicated accounts and payments are to be authorised in a way that will enable simple accounts to be drawn up.

Welfare of the breed:

- Welfare activities to promote or ensure the future of the breed will be posted on relevant websites and social media to inform the Club membership.
- All monies for breed welfare will be kept in dedicated accounts and payments are to be authorised in a way that will enable simple accounts to be drawn up.

Rescue and welfare guidelines based on Kennel Club recommendations:

The Rescue Officers and Regional Co-ordinators will endeavour to ensure that in the case of rescue:

- Dogs will be provided with adequate and appropriate care at all times.
- The Rescue will endeavour to seek, suitable long-term homes for dogs
- The Rescue will maintain contact with new keepers and assist as appropriate
- When necessary, new arrivals will be kept isolated until they have been assessed
- Vaccination records will be sought if possible or dogs vaccinated as appropriate.
- As much information as possible will be sought from the source of the dog as to its health, ownership, temperament and reason for re-homing. Where appropriate, dogs will be scanned for identity and steps taken to reunite dogs with owners or breeders. It is the decision of The Rescue if a dog should be returned to the breeder once in the care of rescue.
- Dogs will be assessed by a veterinarian at the earliest possible opportunity in order to determine whether the dog requires veterinary intervention, to advise if they are suitable for re-homing and decide on the best way forward for the dog.
- Neutering of dogs and bitches will be considered unless there are good reasons for not doing this. This can be made as a condition of adoption.
- In cases where dogs are considered unadoptable for reasons of health or temperament, careful consideration should be given to the best future options. If there are health issues which cannot be resolved and which impair the dog's quality of life to such an extent that it is suffering then humane euthanasia should be considered.
- All dogs must be microchipped from 6 April 2016. When a dog is re-homed to a keeper the dog must be registered in that person's name with the proviso that the dog must be microchipped if not already done so. The Rescue's contact details may be added as an alternative contact point should the dog become lost. There remains the legal requirement for a dog to wear a collar and tag when in a public place.
- All prospective owners are to be adequately assessed. The Rescue will be satisfied as far as possible that individuals are physically, socially and financially able to care for the dog. The Fund must ensure that all adopters are at least 18 years of age.
- Prospective owners living in rented accommodation must show written permission to keep a dog on the premises.
- Home visits may not be required in every case but if the dog has specific needs, a home visit may be deemed necessary.
- All potential adopters should be made aware of the responsibilities of dog ownership and breed specific issues.
- The Rescue will never knowingly provide dogs for adoption to any commercial dog wholesalers, retail pet dealers or directly or indirectly to be given as prize or donation in a competition of any kind.

- The Rescue has a form of contract with former and new owners as appropriate. These include a form releasing the dog from the owners to the care of The Rescue, clearly indicating whether it is a rescue situation, and therefore a potentially permanent transfer to a new owner, or a temporary foster situation. There is to be a similar agreement form for the new permanent or temporary keeper of the rescue dog.
- Full and appropriate documentation must be completed for all dogs being re-homed.
- Kennel Club registration papers may be passed on to the new owner, if available, at the discretion of The Rescue. However, the papers will not be passed on until after a settling in period of at least 3 months when the terms and conditions of the re-homing contract been met.
- Ongoing contact should be maintained to ensure that re-homings have been successful, and in the event that they are not, The Rescue must be prepared to take the dogs back.
- Financial contributions can be accepted from new owners but the dog should not miss out on a good home for the sake of a contribution. In some situations where the new owner is not in a position to donate, a 'permanent foster' may be deemed the most suitable arrangement in order for The Rescue to support with veterinary expenses.
- The Rescue may provide appropriate information to new owners about canine care and welfare as well as suitable sources and contacts, including breed clubs.
- The Rescue will endeavour to keep abreast of any developments in animal welfare.
