So impressed with this very well presented 7 year old of the correct shape and size. He is short and cobby with correct conformation and level topline. Good depth of chest with plenty of heart room. Low set ears with good fringes set on a good domed head and very dark round eyes completed the picture. Unfortunately, this lovely black and tail failed to co-operate with his handler. He is short with level topline and absolutely full of himself which did not help his handler. Gleaming, straight, silky coat. Sweet expression with correctly set dark eyes set in a good head, with good ear placement. Not a large dog but he was well muscled and balanced. Once he has learnt to behave will have a good future.

What can I say about this lovely tri girl of correct size and proportions that has not already been said. She was beautifully presented, her head was domed with large, round dark expressive eyes, well cushioned muzzle, ears long which were set low. Good pigment and correctly set nose pad. Short, cobby body which was well ribbed and well laid back shoulders. Correct tail carriage on the move and today she covered the ground really well with drive and confidence on her straight well boned legs. Together with my dog cc winner they presented the perfect couple of toy spaniels and a hard decision to chose between the two for BOB.
